

Pricing Policy

Ezimetal Raymond Terrace aims to provide the best possible value for money in the products we supply. This impacts our prices in a number of ways:

You don't have to buy a whole length of steel if you don't need it.

We have a "cut" rate that applies if you want less than a length. So you can buy just 10cm if that's all you need.

It's cheaper by the length.

When you buy a length or more, we take 35% off the "cut" rate. That way, you get the choice - which will be better for you.

We shop around.

You won't see our everyday prices on our website because we are constantly chasing around to find the best deals, and they can frequently change.

We only handle Australian.

Wherever possible, we handle only Australian materials. We believe that Australian steel is of a consistently better quality than its rivals. We understand that this brings much better value to our customers, for not much difference in price, and has earned Ezimetal Raymond Terrace a reputation for reliability.
